

# NEXT GENERATION AIR RIDE SLIDER

## The Evolution of Air Ride Slider Design

A full-featured, low weight, low maintenance air ride slider that promises superior performance.

### Features

- Reduced tire wear
- Better suited for wide-based tires than conventional air ride suspensions

#### Safe

- No dock walk and no dock drop by design, without complicated add-ons. Our anti-dock drop and anti-dock walk solutions not only means less risk of injury to the fork truck driver but also less damage to the load

#### Easy to Use

- Flexi-Pull pin release system provides less hassle, less effort, and greater operator safety
- No dump valves
- One-point alignment for both axles allows realignment without retorquing any bolts
- Easy air tank installation

#### Superior Stability and Ride

- Non-brake reactive
- Low axle torque
- Track rods provide progressive roll stiffness superior lateral stability
- Pre-torqued pivot connections

#### Low Cost of Operation

- Huck™ bolt assembly ensures better paint coverage resulting in greater corrosion resistance
- No expensive add-ons. Includes standard features that others charge for
- Low weight allows you to haul more freight and save on fuel costs
- Durable construction for longer life and longer trade cycles

### Applications

All standard heavy duty trailer applications including:

- Dry freight and refrigerated vans

# NEXT GENERATION AIR RIDE SLIDER

One-point alignment for both axles allows realignment without retorquing any bolts

Reduced tire wear

Better suited for wide-based tires than conventional air ride suspensions

Superior lateral stability

Flexi-Pull pin release system provides less hassle, less effort, and greater operator safety

Improved corrosion resistance

## Specifications

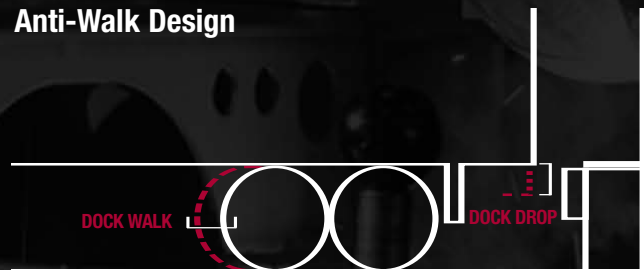

### Standard

- Anti-dock walk design
- Slider subframe rated at 40,000 lbs.
- 49" axle spacing
- 77.5" track
- Compatible with Hutch and TTMA/Binkley body rails
- Integrated Reyco Granning Global Axle™
- All axles prepped for tire inflation systems. Axle tubes drilled, tapped and plugged
- Can be used with dual and wide-base single tires
- Extended-life brake shoes
- 8" subframe height
- Flexi-Pull™ pin release assist

### Optional

- 16.5" or 18" mounting heights
- MTIS® tire inflation system preparation
- P series parallel spindle for improved oil seal performance and bearing life
- Air pin release system
- Hubs and drums
- Tapered or parallel spindles

## Anti-Walk Design

Reyco Granning eliminates both dock walk and dock drop. While loading and unloading, your trailer stays just where you dropped it. As a result, strain on the landing gear is lessened, fork truck traffic is protected, trailer life is extended, and the risk of damaging cargo is reduced.

### The Reyco Granning Promise

For nearly 100 years, the Reyco Granning name has been associated with proven product quality, value, and availability. This focus on QVA has helped fleet owners keep their trucks and trailers running more efficiently and more profitably, mile after mile.

# QVA

**Quality:** Providing worry-free reliability

**Value:** Exceeding customer expectations

**Availability:** Delivering on our promise, on time, every time

Reyco Granning is a brand name of Tuthill Transport Technologies, part of Tuthill Corporation, a privately owned international manufacturing company with more than 3,000 employees and facilities on five continents.
